PROFESSIONAL SUMMARY

I am a motivated and results-oriented Junior web Developer currently pursuing a Master of Computer Applications (MCA) to deepen my technical expertise. I have hands-on experience building responsive and user-friendly web applications using HTML, CSS, JavaScript. I also have foundational knowledge of Python for scripting and tool development, and I continuously update my skills to stay aligned with industry trends and best practices.

PROJECTS

BakeEase | MAR 2026 – JUN 2026

- Bakeease System using Flutter, Django, and MySQL
- **Customer:** Browsed bakery products, placed customized cake orders, managed cart/wish list, and made online payments.
- **Baker:** Managed products, orders, inventory, expenses, FSSAI details, delivery tracking, and sales reports.
- **Delivery Person:** Viewed assigned deliveries, updated delivery status, and tracked order completion.
- **Admin:** Managed users, bakers, delivery personnel, products, orders, payments, and overall system operations.

SHERO | SEP2025 – NOV2025

- Web-Based Healthcare Support System for Transgender Individuals using HTML, Python, and SQLite
- **User:** Searched gender-affirming hospitals, booked appointments, accessed counseling services, and explored community support resources.
- **Doctor:** Managed appointments, provided counseling sessions, and updated patient consultation details.
- **Hospital:** Managed hospital profiles, doctors, gender-affirming services, and appointment schedules.
- **Admin:** Controlled hospital listings, doctor accounts, user profiles, counseling resources, and overall system management.
